Additional Information:

Morning session: Journal club:

Students will discuss recent scientific articles which are selected by a panel of students. In session 1 on 17th October groups for the Journal Club will be formed.

Afternoon session: Work in progress seminar:

In session 1 on 17th October thesis committees will be formed.

In session 2 – 4 an external speaker will be invited for a scientific talk. Afterwards students will present their current scientific work.

PIs only need to attend the afternoon session.

PIs who are organising the session need to attend morning and afternoon sessions.

“Winterworkshop”

1 ECTS

| Dates: | Coordinator: | Location: |
|--------------------------------------|---------------------|----------------------------|
| 31.01. – 02.02.2015 09:00 – 18:00 | Peter Hinterdorfer | Johannes Kepler University |

Additional Information:

Participating in the annual „Linz Winterworkshop“ is part of the educational program, containing lectures of renowned international scientist and speakers from industry. Students should present their own poster. It is highly appreciated, that all PIs also attend the conference.
