

# Call for Papers

We are pleased to announce our 5. Conference on recent advances in metrology, which will be held on Thursday the **11<sup>th</sup> of May, 2017** in **Vienna, Austria**. The venue for the conference is the **Haus der Ingenieure**, located close to the Secession, the Vienna Museum of Modern Art, the Vienna Museum of Natural History and the Vienna Museum of Fine Arts.

The INNOVATIVE METROLOGY conference focuses on novel and innovative research results in the field of measurement science and technology. The scope of the conference includes all aspects of modern metrology, starting with the sensor design and ending with applications. We therefore strongly encourage scientists and innovation leaders from the academic and industrial sectors to present their current research activities in the fields of mechanical, optical and electrical sensors and measurement technology.

**Please submit your short paper for peer review until Friday, 18<sup>th</sup> November 2016**

**Submissions (in German or English) should include**

- Title of the full paper
- Abstract (max. 200 words) and preliminary summary of the full paper (2 to 4 A4-pages)
- Short biography of the corresponding author

**Word- and LaTeX templates** can be found at [www.im2017.jku.at](http://www.im2017.jku.at)

**The time for the presentation (in German or English)** is limited to **15 minutes**, followed by **10 minutes** for discussion

**Submission** by E-Mail to [im2017@jku.at](mailto:im2017@jku.at) (file size limit: 20MB)

A participation fee of 180€ is charged, which covers the full paper publication, coffee breaks and lunch. A reduced participation fee of 120€ may be offered to regular students.

All accepted contributions will be published in the **conference proceedings** (given an **ISBN** code). The abstracts of the contributions will also be electronically available via **INSPEC®**. The authors of selected papers will be invited to publish an expanded version of their work in the SCIE listed De Gruyter journal **Technisches Messen**.

Conference participants also have the opportunity to present roll-ups or show small demonstrators as part of an accompanying exhibition.

## Committees

**Univ. Prof. DI Dr. Bernhard Zagar**

JKU Linz, Institute for Measurement Technology

**Univ. Prof. DI Dr. Peter Dietmaier**

TU Graz, Institute of Applied Mechanics

**Ass. Prof. DI Dr. Bernd Eichberger**

TU Graz, Institute of Electronic Sensor Systems

**Univ. Prof. DI Dr. Manfred Kaltenbacher**

TU Vienna, Institute for Mechanics and Mechatronics

**Univ. Prof. DI Dr. Christian Kargel**

Bundeswehr University Munich, Division of Sensor Technology and Measurement Systems

**DI Dr. Stefan Rupitsch**

Friedrich-Alexander-University of Erlangen-Nuremberg, Chair of Sensor Technology

**Dr.-Ing. André Schäfer**

HBM Test and Measurement, Darmstadt

## Important dates

**Friday, 18<sup>th</sup> November 2016: Extended deadline for short paper submission**

Monday, 5<sup>th</sup> December 2016: Notification of authors about acceptance or rejection

Friday, 24<sup>th</sup> February 2017: Deadline for full paper (4 to 6 A4-pages) submission

## Contact

Johannes Kepler University Linz – Institute for Measurement Technology

Altenberger Straße 69, A-4040 Linz

Phone: +43 / 732 / 2468 9208
