

V. DIPLOMA THESIS – DISSERTATIONS

Diplomarbeiten - Dissertationen

1. Diploma thesis in preparation / Laufende Diplomarbeiten

Wolfgang HUBER	Quanteneffizienz von organischen Solarzellen
Stefan SCHAUR	Electrochemical Doping of OFETs to improve contact resistances
Doris SINWEL	Nakayama Transistors

2. Doctoral thesis in preparation / Laufende Dissertationen

Anita FUCHSBAUER	CO ₂ Recycling to Synthetic Fuels
Philipp STADLER	Fabrication & Characterization of 2-D Charge Carrier Density in Organic Semiconductor Heterostructures
Jacek GASIOROWSKI	Charge Carrier Transport and Lifetime as variation of the Morphology different organic/hybrid nanostructures

4. Doctoral thesis completed / abgeschlossene Dissertationen

Martin EGGINGER	Electrical Characterisation of Poly(vinyl alcohol) based Organic Field Effect Transistors
