

V. DIPLOMA THESIS – DISSERTATIONS

Diplomarbeiten – Dissertationen

1. Diploma thesis in preparation / Laufende Diplomarbeiten

Doris SINWEL	Electrical Characterization of Vertical Organic Transistors
Stefanie SCHLAGER	Diodes with Bulk Schottky Junctions
Sandra KOGLER	Charge Modulation Spectroscopy

2. Doctoral thesis in preparation / Laufende Dissertationen

Philipp STADLER	Fabrication & Characterization of 2-D Charge Carrier Density in Organic Semiconductor Heterostructures
Jacek GASIOROWSKI	Charge Carrier Transport and Lifetime as variation of the Morphology different organic/hybrid nanostructures
Eric GLOWACKI	Spectroscopy on Organic Solar Cells
Engelbert PORTENKIRCHNER	Photoinduced Electron Transfer from Organic Semiconductors onto Redox Mediators for CO ₂ Reduction

4. Doctoral thesis completed / abgeschlossene Dissertationen

Anita FUCHSBAUER	Electrochemical Processes for CO ₂ Recycling
------------------	---

4. Diploma thesis completed / abgeschlossene Diplomarbeit

Stefan SCHAUR	Electrochemical doping of organic field-effect transistors to improve contact resistance
---------------	--
