

# Wanted! Research assistants (f/m)

Institute of Signal Processing

Institute for Communications Engineering and RF-Systems

At the Institutes of Signal Processing and the Institute for Communications Engineering and RF-Systems at Johannes Kepler University Linz five open positions for research assistants are to be filled as soon as possible.

There will be founded a Christian Doppler Laboratory for Digitally Assisted RF Transceivers for Future Mobile Communications by the two institutes. Therefore, we are looking for scientific staff members for research work within the domains of Signal Processing and Communications Engineering. The project work offers the possibility of a dissertation.

Candidates should have a master-equivalent degree in Information Engineering, Electrical Engineering or Mechatronics respectively in some closely related field of study like Computer Sciences, Mathematics or Physics. The working languages are English and German. For more information please contact Professor Huemer or Professor Springer, preferably by email: [mario.huemer@jku.at](mailto:mario.huemer@jku.at) or [andreas.springer@jku.at](mailto:andreas.springer@jku.at)

Linz, a city with approx. 200,000 inhabitants, is located by the Danube, close to the Austrian Alps and half-way between Vienna and Salzburg.

Please send your application with personal and scientific data and a compact statement about scientific interests and achievements to: [office.isp@jku.at](mailto:office.isp@jku.at) with reference to "Application CD-Lab".

Postal address:  
Univ.-Prof. DI Dr. Mario Huemer or  
Univ.-Prof. DI Dr. Andreas Springer  
Johannes Kepler Universität Linz  
Altenberger Straße 69  
4040 Linz  
Austria

We are approaching interested candidates, prepared to exercise the aforementioned duties for a yearly gross salary of € 38,175.-- for PhD students (full time). Johannes Kepler University is an equal opportunity employer.
