The Institute of Computer Graphics at the Johannes Kepler University Linz (www.jku.at/cg) is seeking a:

**Research Assistant (PhD student)**
starting October 1st or earlier

The Institute of Computer Graphics at the Faculty of Technology and Natural Science at the Johannes Kepler University Linz (www.jku.at/cg) is seeking a project assistant (PhD student) for a project duration of three years (extendable).

According to the wage agreement of the Austrian Research Funding Agency (FWF), the gross salary is 28.350 EUR/year (30h per week). Applicants must hold a Master’s or Univ. Diploma degree in computer science or related fields (such as mathematics), and should have profound experience in one or more of the following areas: computer vision, signal processing, image processing, optics. Considerable experience in programming is expected. Knowledge in MATLAB is recommended. Prior involvement in research or development projects is a plus. Candidates must be fluent in English (speaking and writing).

Linz, the 2009 European Capital of Culture, is a beautiful place in the alpine uplands between Salzburg and Vienna (www.linz.at/english, www.oberoesterreich.at/english). For further information, please don’t hesitate to contact us.

To increase the quota of women in academia, we especially encourage female candidates to submit applications. At equal qualification, female candidates will be preferred. Disabled applicants with adequate qualification will come into special consideration.

Applications including curriculum vitae and copies of transcripts and certificates must be submitted to Univ. Prof. Dr. Ing. habil. Oliver Bimber, oliver.bimber@jku.at.
The Institute of Computer Graphics at JKU Linz (www.jku.at/cg) is seeking:

2 Research Assistants (PhD students)
three-year contract (extendable)
starting October 1st or earlier

The research will be focused on the development of novel Visualization and Visual Analytics techniques for the analysis of large biomedical data. The work will be conducted as part of two research projects funded by the Austrian Science Fund (FWF) and an industrial partner, respectively. The research will be embedded in the Caleydo project (www.caleydo.org), which is an ongoing collaboration with the Harvard University, the University of Utah, and Graz University of Technology. The candidate has the possibility to obtain a PhD degree. Additional duties include the support of the acquisition of third-party funds and the co-supervision of Bachelor's and Master's theses.

According to the wage agreement of the Austrian Research Funding Agency (FWF), the gross salary is 38,175 EUR/year (40h per week) or 28,630 EUR/year (30h per week). Applicants must hold a Master's or Univ. Diploma degree in computer science or related fields (such as mathematics or bioinformatics), and should have profound experience in one or more of the following areas: visualization, data mining, statistics, machine learning, computer graphics, and human computer interaction. Considerable experience in software development is expected. Knowledge in web technologies, such as Python, HTML5, D3 and JavaScript, is recommended. Prior involvement in research or development projects is a plus. Candidates must be fluent in English (speaking and writing).
