Law by Algorithm – Digital Dispute Resolution Einladung

In this talk, Horst Eidenmueller will present his new book (co-authored with Gerhard Wagner) on Law by Algorithm. Specifically, he will discuss the overall goals and structure of the book and one of its chapters, namely, Digital Dispute Resolution. In this chapter, the authors identify and analyse key developments and regulatory challenges of dispute resolution assisted by innovative technologies. They discuss digital enforcement and smart contracts, internal complaint handling mechanisms, external online dispute resolution and courts in a digital world and suggest regulatory tools to address arising problems.

Prof. Dr. Horst Eidenmüller, LL.M. (Cantab.) is Professor for Commercial Law (Statutory Chair) at the University of Oxford and a Professorial Fellow of St. Hugh's College, Oxford
