

V. DIPLOMA THESES - DISSERTATIONS / Diplomarbeiten - Dissertationen

1. Diploma theses completed / Abgeschlossenen Diplomarbeiten

Henrik JOHANSSON Photoinduced Fourier Transform Infrared Spectroscopy on Conjugated Polymer Films and Blends

Franz PADINGER cw-Photoconductivity of Fullerene + Conjugated Polymers + Conventional Polymer Composites: Effect of stretching

Markus Clark SCHARBER Time Resolved, Photoinduced Electron Spin Resonance Experiments on Conjugated Polymer/C₆₀ Composites

2. Diploma theses in preparation / Laufende Diplomarbeiten

Gebhard MATT Organic Thin Film Multilayers Fabricated with Dual Source Hot Wall Epitaxy

3. Doctoral theses in preparation / Laufende Dissertationen

Desta GEBEYEHU Fabrication and Characterization of Photovoltaic Element using Conjugated Polymer/Fullerene Composites

Antonio CRAVINO Synthesis of low-bandgap conjugated Polymers

and fabrication of (photodiodes and) plastic solar cell devices using them.
