

Lecture

# Multifunctional Materials for Structural Health Monitoring and Resilient Systems

**Prof. Kenneth J. Loh**

Associate Professor of Civil & Environmental Engineering, University of California, Davis  
Head of Nano-Engineering & Smart Structures Technologies (NESST) Laboratory  
Visiting Professor at National Taiwan University (currently)

**Thursday, July 17<sup>th</sup>, 2014, 15:00**

**Johannes Kepler University Linz, Lecture Tract, Lecture Hall HS3**

**CDL** Christian Doppler Laboratory for Structural Strength Control of  
Lightweight Constructions
