01. Petition: Regional City Rails in Linz NOW

01. Petition: Regional City Rails in Linz NOW

Over the years, traffic congestion in the greater Linz area has been getting worse. A shift from commuting by car to using public transportation would help alleviate the situation. A regional, urban train in Linz could be the answer to resolving the daily congestion on both the A7 highway and city streets.

In this regard, there is a non-party, online initiative to collect signatures and statements to support a regional, urban mode of transportation to not only connect the JKU with the MED campus, but also create a designated station stop.

If you are so inclined, you can click below to sign the petition.
