USI Covid Concept

Important Information for USI Course Participants

+ You may only attend on-site and in-person courses after registering and presenting proof of adherence to Austria's

2-G Rule (*vaccinated, recovered*):

1. Medical confirmation of having recovered from a SARS-CoV-2 infection in the past 180 days, based on a molecular biological test
2. Proof of having been vaccinated against COVID-19 with a centrally licensed vaccine
 - (a) Second vaccination (which cannot be more than 270 days ago) and with a minimum of 14 days between the first and second vaccination, or
 - (b) A vaccination administered 22 days prior and after having been vaccinated with a type of vaccine that is just one shot only, whereby this cannot be more than 270 days ago (applicable to January 3, 2021 - afterwards a second dose is required), or
 - (c) Administered vaccination, providing there was a positive molecular biology test for SARS-CoV-2 a minimum of 21 days prior to the administered vaccination or proof of having neutralizing antibodies prior to having the vaccine administered; the vaccination cannot be more than 270 days ago, or
 - (d) An additional administered vaccination, whereby the vaccination may not have been administered more than 360 days ago and there is a minimum of 120 days between this vaccination and a vaccination as outlined in points (a) or (c) and a minimum of 14 days has elapsed, as outlined in point (b)
3. Notification to quarantine if issued to an individual proven to have been ill with SARS-CoV-2 180 days prior to being tested.
4. During the 4-week transition period (to December 6, 2021), having received the first dose of the vaccination along with a valid PCR test will be considered as adherence to the Austrian "2-G rule" (*vaccinated, recovered*)!

+ The number of course participants have been reduced in regard to the situation. Sitting in on a class to try it out is currently not permitted. In the **event of a Covid-19 infection** (can be reported anonymously for that particular course), those enrolled in the course will be notified via e-mail.

+ We recommend **arriving in sportswear** to avoid using the changing rooms. Please avoid any unnecessary lingering before and after your scheduled class.

+ If possible, please bring your own mat.

+ **Do not attend class if you suspect you have been infected with Covid-19!!**

+ **Additional measures** cannot be ruled out during the semesters (i.e. any change to entry regulations as described above or others). In a worst-case scenario, certain courses can switch to being held online without aliquot fee reimbursement.
