USI Covid Concept (Last update: May 20, 2022)

Important Information for USI Course Participants

+ Register in advance in order to attend on-site courses

+ Each participant is responsible for his/her own actions; this applies particularly to those who belong to a high-risk group.

+ Participants are asked to act responsibly and take all measures necessary to help minimize the spread of COVID-19.

+ Documentation indicating a low epidemiologic risk (proof of vaccination, proof of recovery from Covid, or a recent Covid test) is no longer required. The Austrian “2.5 G” rule has also been suspended.

+ The FFP2 (KN-95) mask mandate has been lifted at all sports facilities! We still, however, recommend, wearing a face covering, especially when indoors! Wash and disinfect your hands regularly and maintain your distance from others!

+ Depending on the situation, the number of course participants will be reduced. Sitting in on classes before signing up is not permitted. If you become infected, call the health office number 1450 immediately and inform the JKU by sending an e-mail to: corona@jku.at!

+ We recommend arriving in sportwear to avoid using the changing rooms. Please avoid any unnecessary lingering before and after your scheduled class.

+ If possible, please bring your own mat.

+ If you experience any symptoms or suspect a Covid-19 infection, do NOT attend the class and/or leave the course immediately. Inform any individuals you came into contact with!

+ Additional measures cannot be ruled out during the semesters (i.e. any change to entry regulations as described above or others). In a worst-case scenario, certain courses can switch to being held online without aliquot fee reimbursement.

+ USI competitions are explicitly listed as mass sporting events and are regulated according to guidelines as outlined the professional associations and Sport Austria. (https://www.sportaustria.at/de/schwerpunkte/mitgliederservice/informationen-zum-coronavirus/)
