Crown Zurich Hosts Another Panel Discussion on Global Mobility

Crown Zurich team organized another Crown Worldwide Global Mobility talk for the Greater Zurich Area on October 26. Under the guidance of Giovanni De Carlo, business development director - Europe, Crown Zurich hosted Dr. and Professor Iris Fischlmayr from the Institute for International Management of the Johannes Kepler University in Linz, Austria; Carmen Wey, Director HR Operations Europe from NovoNordisk and Angela Weinberger, owner of Global People Transitions GmbH (former Head of Global Mobility for PwC Switzerland). The HR experts discussed *Deployment Management - Create Successfully International Personnel Assignments from a Swiss Perspective*. The theme of the event was chosen based on the book *Die professionelle Auslandsentsendung or The Professional International Assignment*, which was co-authored by Dr. Fischlmayr and one of the discussion topics for the evening.

The successful event offered a platform for HR professionals to discuss and exchange their experience on a wide range of questions surrounding global mobility. The 26 human resource and workforce mobility specialists represented companies like SwissRe, Holcim, Ecolab, LGT Bank of Liechtenstein, Takeda Pharmaceuticals, PwC and Capgemini. Crown had the opportunity to welcome existing customers and service partners and cover issues like schooling, tax and insurance. The team was especially happy to share their expertise with the many participants who were not customers of Crown Zurich. All participants including the panelists benefited from the ideal networking platform by sharing and discussing workforce mobility challenges with other HR experts based in the Greater Zurich Area.

The logistics for this event were managed by Business Development Manager for Western Switzerland Claudia Schmidt and the discussion was moderated by Business Development Director for Continental Europe, Giovanni De Carlo.

Thank you for SHARING your knowledge and expertise, Crown Zurich!
